I AM NOW in the presence of pure Being, and immersed in the Holy Spirit of life, love and wisdom.

I acknowledge Thy presence and Thy power, O blessed Spirit; in thy divine wisdom I now erase my mortal limitations and from Thy pure substance of love bring into manifestation my world, according to Thy perfect law.

Charles Fillmore

Chapter 26

The Kingdom of Heaven--

The Fourth Dimension

...A Realm in which humankind as well as everything else exists in a state of unconditioned freedom. The Garden of Eden, the Kingdom of the Heavens, and the universal Cosmic Ethers are all synonymous.

The Kingdom of Heaven-- The Fourth Dimension

The Dimension from which we may manifest everything and most especially our good. Everything that is seen is formed out of that which is not seen and unformed.

26 A Kingdom of Heaven

- The Kingdom of Heaven, the Fourth Dimension, is the Realm of Divine Ideas as well as the orderly adjustment of Divine Ideas in the mind and body of humankind.
- The body as well as thoughts in the mind are effects of these Divine Ideas.

26 B Kingdom of God and Kingdom of Heaven

- Heaven is a place in consciousness, a sphere of mind.
- The Kingdom of God is the Absolute.
- The Kingdom of Heaven is based on our relative perception of the Kingdom of God.

26 C Recognition of the Kingdom

- The Kingdom of God is a term used by Jesus that has the same meaning as Omnipresence.
- The very center of Omnipresence is wherever any person becomes centered in the awareness of that Oneness.

26 D Kingdom of Heaven on Earth

- Divine Ideas constitute the Kingdom of Heaven.
- As our minds appropriate these Divine Ideas, we give them form and location in time and space, and therefore have the possibility of manifesting the Kingdom of Heaven on Earth.

26 E The Fourth Dimension

- The Kingdom of Heaven.
- Encompasses the three-dimensional realm in that it interpenetrates them and yet is not bound by them.
- The Realm out of which we manifest our good.

26 F Garden of Eden

- The State of Consciousness where all the possibilities of growth reside.
- The Realm from which we express Divine Ideas from Divine Mind through utilizing the Process of Divine Order, creating an experience of harmony and beauty according to our level of consciousness.

26 G The Fourth Dimension in Relationship to Other Dimensions

- Each successive Dimension moving toward the three-dimensional realm contains all the preceding Dimensions.
- Seven of mind and seven of form and substance.

The Seventh Dimension

- The Basis of everything, the Universal Mass, the Absolute Field of Infinite Potential and out of which everything flows.
- Divine Mind; Source; Kingdom of God; unformed Substance; the amorphous Potential for Divine Idea.

The Sixth Dimension

■ The energetic potential in the relative realm.

“The movement that takes place in the Universal Mass, either toward or from Universal Mass.”

The Fifth Dimension

- The separation of Elements from Universal Mass, or their return thereto.
- Divine Ideas “taking form” in Consciousness.

The Fourth Dimension

- All that takes place in the expansion of the three-dimensional world as well as resolving it back into its component parts.
- The three-dimensional realm is but the precipitate caused by various combinations of elements which formerly existed as part of the Universal Mass.

26 H The Two Paths of Progress

■ All things are either progressing from the Universal Mass, where the potential and possibilities are limitless, into form where there are limitations based on the consciousness of the one(s) laying hold of the Divine Ideas, or resolving back into the Universal Mass.

261 The Seen and Unseen

- Before something is seen it was first unseen.
- Each experience of the seen is different based on individual perception.

26 J Our Work

■ The Kingdom of Heaven Consciousness, Christ Consciousness, is from where we can create in the most harmonious, loving and peaceful way-- and develop new possibilities from an inexhaustible storehouse of elements.

26 K Our Purpose

- Manifest our individual good.
- The service and edification of humankind.
- Bring the Glory of Oneness to awareness.

26 L Attention

- What we focus on grows in our consciousness.

26 M How To

- First, realize that all manifestation and expression is brought forth from the Fourth Dimension.
- Awaken and expand our awareness of our true nature.
- Monitor our focus--choosing to see good.
- Devote time to the Silence.
